The Baldwin Hills Park Master Plan is the community-based vision to expand Kenneth Hahn State Recreation Area (KHSRA) into a two-square mile world-class park that will serve as a recreation nucleus for area residents and visitors to this region of Los Angeles County. With barely one acre per one thousand people, the communities that exist within a five-mile radius of the park are quantifiably park-poor. The conceptual plan, developed through a series of public workshops held over the course of two years, addresses a wide range of needs supported by the nearly 800 stakeholders who participated and supported the planning process.

Approved by the Baldwin Hills Conservancy in 2002, components of the Master plan will be implemented subject to availability of resources and the acquisition of privately held land. Progress towards the creation of a network of regional activities and amenities radiating from the Baldwin Hills will help revitalize the area's public lands, maximizing the open space and recreational opportunities for millions of park users. Key improvements called for in the Master plan include:

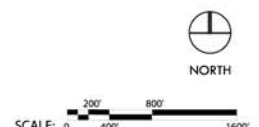

- ◆ Bridge across La Cienega connecting the east and west ridgelines
- ◆ Comprehensive trail system with 15-miles of footpaths and bicycle trails
- ◆ Large active recreational areas for soccer, baseball and other sports
- ◆ 18-hole golf course and driving range facilities
- ◆ Community center and environmental interpretation facilities
- ◆ Botanical and sculpture gardens
- ◆ Restored native habitat areas and wildlife corridors

## LEGEND

- |  |  |  |  |
|--|--|--|--|
|  | Natural Habitat (existing and restored)    |  | Primary Entry - Vehicular/Pedestrian/Bicycle |
|  | Other Open Space (ridges, slopes, buffers) |  | Secondary Entry - Pedestrian/Bicycle         |
|  | Active Recreation Areas                    |  | Parking Areas/Shuttle Stop                   |
|  | Passive Recreation Areas                   |  | Public Roads                                 |
|  | Community/Cultural/Educational/Facilities  |  | Shuttle/Service Road                         |
|  | Water Features                             |  | Street Tree Plantings                        |
|  | Park Operation Facilities                  |  | Trail/Greenways                              |
|  | Bridges & Funicular                        |  | Footpaths                                    |
|  |  |  | Paved Bicycle Trails                         |
|  |  |  | Trail/Greenway Connections                   |
